ELEVATOR PITCH
What is an elevator pitch?

A concise explanation that highlights your skill set and interest along with any goals you set for yourself.

**Tips:**

1. Should be 30 seconds or less hence elevator speech
2. Should include your skill set or Interest in appropriate subject
3. Should include a goal or purpose for wanting said position
What should I do?

- Research the company beforehand to get a feel for what kind of people they are looking for.
- Think about how you can fit into their company and highlight those reasons.
- Speak confidently about yourself and ask questions.
Step 1: Introduction

- Briefly introduce yourself and let the audience know what it is you do.

My name is (...) and I am currently studying (...) at the University of California Santa Cruz.
Step 2: Interests and Skills

- Make sure to explain what skill(s) you have acquired in your field of study and explain how it has helped.

  I am working on (...) which has taught me to deal with (...) and become proficient in (...).

- Helpful phrases:
  Adept in...
  Proficient in...
  Expertise in...
Step 3: Goals and Aspirations

- Have an idea of what it is you want to do in the future and state what drives your interest in your field of study.
- State who it is you want to help and why.

I hope to gain more of an understanding for (...) in order to achieve my goal of (...).
The result...

I am a fifth year student studying Computer Engineering, with a concentration in Digital Hardware. Some of the technical skills that I have are programming in C, java, Matlab and Verilog. Outside of class, I am a corporate relations officer for an on campus organization called the Society of Asian Scientist and Engineers. Two of my part time job was working as a subject tutor for EE101 and a student supervisor for the school dining hall. From these jobs, I have gained leadership, communication and teamwork skills.
